SCENTKEEPER

Tidy Up the Perfume Archive!

3,240 bottles. A place for every one.

Bring a scattered perfume archive back to order, solo or with a friend.

Scentkeeper is a first-person organizing game set in a two-floor perfume archive. Collect scattered bottles, inspect their labels, use the archive map to find the right cabinet, and place each bottle on its shelf. As collections come together, cabinets light up and the archive transforms one placement at a time.

DEVELOPER
Emberline Games

PLATFORM
Windows PC / Steam

PLAYERS
Single-player / 2-player online Duo

GENRE
First-person organizing

INTERFACE
17 languages, including English

RELEASE DATE
To be announced

Permanent bottle labels, brand names and perfume names remain untranslated.

Emberline Games is an independent game studio developing Scentkeeper.

From scattered bottles to glowing shelves

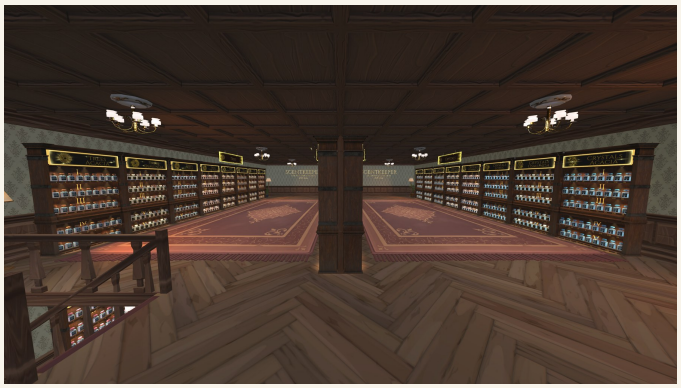

Collect bottles and inspect their labels.

Use the archive map to find your way.

Watch completed collections light up.

See the two-floor archive take shape.

Four ways to play

Cozy

Organize without time pressure and unlock helpful skills.

Speedrun

Plan your route and place every bottle as quickly as possible, with skills disabled.

Duo

Share the archive with a friend and complete collections together. Skills are disabled.

Hardcore

Handle breakable bottles carefully; mistakes add time penalties. Skills are disabled.

Ideas for coverage

Short-form: a cabinet's before-and-after transformation. A stream: a relaxed Cozy session with chat. Co-op: sharing the archive in Duo. A challenge: organizing without breaking a bottle in Hardcore.
